

Conduit90[®]

Long-Term Hydrating Surfactant

GENERAL INFORMATION

Conduit 90 Granular is an effective long-term soil surfactant designed to last up to 90 days in the soil to help manage soil water repellency. **Conduit 90** Granular enhances the infiltration and movement of water in and through the root zone aiding in the prevention of localized dry spots. **Conduit 90** Granular is easy to use and can be applied at anytime of the year to avoid the detrimental impact of water repellency stress and localized dry spots. **Conduit 90** Granular is safe and will not harm turf when used as recommended.

CONDITIONS OF SALE

WARRANTY AND LIMITATION OF LIABILITY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

HAZARD STATEMENT(S)

May cause respiratory irritation.

PRECAUTIONARY STATEMENT(S)

Prizelawn CBR III / rotary	F
Scotts (Pro Turf) R8A / rotary	H
Spyker / rotary	3.7

*To assure accurate applications, calibrate your spreader periodically.

Weight to Volume Equivalents for Conduit 90 Granular Formulation:

3.25 lbs = 8 fl.oz. of Conduit 90 Liquid

160 kg = 25.5 L of Conduit 90 Liquid

CONTAINS NON-PLANT FOOD INGREDIENT:

Active Ingredient	16%	Alkoxylated polyols
Inert Ingredient	84%	Porous ceramic carrier

Conduit 90 Granular should be applied early in the season before localized dry spot conditions and formations occur.

DIRECTIONS FOR USE

Golf, Lawns, and Sports Turf

Apply two applications 7 to 10 days apart at 3.25 pounds per 1,000 ft² (160 kg/ha). Reapply a split application after 90 days or as needed.

Sod Installation

Immediately following sod installation, apply 3.25 pounds per 1,000 ft² (160 kg/ha). For long-term water management, apply another 3.25 pounds per 1,000 ft² (160 kg/ha) 7 to 10 days after initial application.

Seed Application

Apply 3.25 pounds per 1,000 ft² (160 kg/ha) two weeks prior to seeding or overseeding.

Irrigation is necessary to release **Conduit 90** from the carrier. Irrigate before next mowing or leave baskets off.
