

AQUA·AID
SOLUTIONS

Hydra·30 Plus™

Hydrating Surfactant

Restores consistent hydration throughout the root zone across all soil types for improved moisture management.

Delivers firm, healthy playing surfaces with flexible, cost-effective application options.

Fortified with a vitamin package to help turf combat stress and accelerate recovery.

Hydra-30 Plus™

Hydrating Surfactant

KEY FEATURES

- Restores uniform hydration throughout the root zone across a variety of soil types.
- Enhances overall moisture management within agronomic programs.
- Contains a vitamin package to help turf combat stress and speed recovery.
- Improves root zone moisture to strengthen turf health and resilience.
- Provides application flexibility, visible results, and cost effectiveness.
- Produces firm, consistent turfgrass surfaces under varying conditions.

COMPOSITION

Active Ingredient

- 60% Hydroxy polyoxyalkylene polymers
- 40% Inert ingredients

APPLICATION INSTRUCTIONS

Apply 3 ounces per 1,000 ft² in 2 gallons of water (10 L/ha in 800 L) at 30 day intervals or as needed.

Irrigate with sufficient water to deliver Hydra-30 Plus to the soil profile – 1/8 inch (3 mm) or more recommended.

Inject 3 to 4 quarts per acre (7 to 10 L/ha) at 30 day intervals or as needed.

BEST PRACTICES

- Apply Hydra-30 Plus within label rates to ensure efficacy is achieved.
- Begin using Hydra-30 Plus early in the growing season before water repellency and LDS conditions are apparent.
- Best results are achieved when Hydra-30 Plus is used as a full season program and not when signs and symptoms of water repellency and turfgrass stress appear.
- When making an Hydra-30 Plus application with a sprayer, utilize a minimum 2 gallons per 1,000 ft² water carrier.
- Hydra-30 Plus has a neutral pH allowing it to be easily tank mixed. It is still important to perform a jar test to confirm compatibility.
