SOLUTIONS

Conduit90[®]

Long Term Hydrating Surfactant

Provides long-term moisture management and combats soil water repellency for up to 90 days.

Delivers consistent turf quality and uniform moisture even through drought or heavy rainfall.

Safe and effective for early-season use or during extreme heat to prevent localized dry spots.

Conduit90[®]

GENERAL INFORMATION

Conduit 90 is an effective long-term soil surfactant designed to last up to 90 days in the soil to help manage soil water repellency. Conduit 90 will help prevent localized dry spot conditions from forming if used early in the season or before water repellency conditions appear. Conduit 90 enhances the infiltration and movement of water in and through the rootzone. Conduit 90 is safe to turf and can be applied at any time of the year to avoid the detrimental impact of water repellency stress and localized dry spots on turf and to increase the vigorous appearance of turfgrass. Conduit 90 is easy to apply through standard spray application equipment to all turfgrass areas.

CONDITIONS OF SALE WARRANTY AND LIMITATION OF LIABILITY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

AQUA-AID GUARANTEE

Conduit 90 comes with a 100% money back guarantee. If you are not satisfied with Conduit 90 for any reason after trying the product at recommended rates, AQUA-AID Solutions will refund your money in full.

8.723 lbs/US gal at 68° F (1.045 kg/l at 20° C)

CONTAINS NON-PLANT FOOD INGREDIENT:

Active Ingredient

- 99% Alkoxylyated polyols
- 1% Inert ingredients

Conduit 90 should be applied early in the season before localized dry spot conditions and formations occur.

DIRECTIONS FOR USE Golf, Lawns, and Sports Turf

Full Rate Application

Apply 16 ounces per 1,000 ft² in 5 gallons of water (50 L/ha in 2,000 L). Reapply after 90 days or as needed.

Split Application

Apply two applications 7 to 10 days apart at 8 ounces per 1,000 ft² in 2.5 gallons of water (25 L/ha in 1,000 L). Reapply a split application after 90 days or as needed.

Irrigate after each application to remove the surfactant from the plant surfaces.

DO NOT combine Conduit 90 in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.

HAZARD STATEMENT(S)

The product is not classified as hazardous. No known significant effects or critical hazards.

PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. In case of eye contact, flush eyes with water. If swallowed, give water or milk. If eye or skin irritation occurs or you feel unwell, get medical advice/attention.
