

**AQUA·AID**  
SOLUTIONS

# FWY·ISP™

**Injectable Infiltration Surfactant**

Enhances water penetration and infiltration through all irrigation systems for consistent soil moisture and uniform turf performance.

Effectively treats water-repellent and hard-to-drain areas while improving delivery and uptake of applied nutrients.

Cost-effective, turf-safe formulation compatible with conventional irrigation and spray equipment.

# FWY•ISP™

## GENERAL INFORMATION

FWY-ISP is a cost effective formulation of AQUA-AID® soil wetting agents designed to enhance the penetration and infiltration of applied water through irrigation systems. FWY-ISP is designed to treat water repellent areas and large brown out areas in fairways and/or mounds, as well as, hard to drain areas. FWY-ISP can also be incorporated into nutrient mixes to allow for more efficient delivery of applied nutrients. FWY-ISP is compatible with all conventional irrigation systems or conventional ground spray equipment. Follow instructions and technical information from equipment manufacturers. FWY-ISP will not harm turfgrass when used according to label directions.

## CONDITIONS OF SALE WARRANTY AND LIMITATION OF LIABILITY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

## AQUA-AID GUARANTEE

Aqua-Aid comes with a 100% money back guarantee. If you are not satisfied with Aqua-Aid for any reason after trying the product at recommended rates, AQUA-AID Solutions will refund your money in full.

## CONTAINS NON-PLANT FOOD INGREDIENT:

### Active Ingredient

- 14% Non-ionic polyols
- 86% Inert ingredients

## DIRECTIONS FOR USE

*Golf, Lawns, and Sports Turf*

### Irrigation Injection

Inject 1 to 2 quarts per acre (3 to 5 L/ha) through the irrigation system at 30 day intervals or as needed.

### Fertigation

Mix proportionately to liquid nutrients to apply 1 to 2 quarts per acre (3 to 5 L/ha) at 30 day intervals or as needed.

### Overseeding

Apply 2 quarts per acre (5 L/ha) one week prior to overseeding. Immediately follow overseeding with a second application at 2 quarts per acre (5 L/ha).

Irrigate after each application to remove the surfactant from the plant surfaces.

FWY-ISP is compatible with most mixes between pH 2 and pH 12. A jar test should be performed prior to mixing.

DO NOT combine FWY-ISP in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.

## HAZARD STATEMENT(S)

The product is not classified as hazardous. No known significant effects or critical hazards.

## PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. In case of eye contact, flush eyes with water. If swallowed, give water or milk. If eye or skin irritation occurs or you feel unwell, get medical advice/attention.
