SOLUTIONS

OARS[®] HS

Hydrating Surfactant with Organic Acid Redistribution System

Combines patented OARS technology with advanced hydrating chemistry to control soil water repellency and restore uniform moisture balance.

Removes humic coatings from hydrophobic soil particles, increasing the number of hydrating sites and improving long-term moisture retention.

Delivers consistent performance between applications, reducing drought stress and maintaining superior turf quality in hard-to-wet soils.

OARS[®] HS

GENERAL INFORMATION

OARS HS is a hydrating surfactant which aids in controlling soil water repellency and helps provide uniform soil moisture and increased soil moisture retention. When used as directed, OARS HS is safe to turf and can be applied at any time of the year to avoid the detrimental impact of water repellency stress and localized dry spots on turf and to increase the vigorous appearance of turfgrass. OARS HS is easy to apply through standard spray application equipment to all turfgrass areas.

CONDITIONS OF SALE WARRANTY AND LIMITATION OF LIABILITY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

AQUA-AID GUARANTEE

OARS HS comes with a 100% money back guarantee. If you are not satisfied with OARS HS for any reason after trying the product at recommended rates, AQUA-AID Solutions will refund your money in full.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

Product may darken or discolor with no adverse effect to efficacy.

8.77 lbs/US gal at 68° F (1.05 kg/l at 20° C)

CONTAINS NON-PLANT FOOD INGREDIENTS:

Active Ingredients

- 85.0% Octahydroxy polyoxyalkylene polymers
- 7.5% Amine salt of alkyl substituted maleic acid
- 7.5% Inert ingredients

DIRECTIONS FOR USE Golf, Lawns, and Sports Turf

Apply 4 to 5 ounces per 1,000 ft² in 2 gallons of water (13 to 16 L/ha in 800 L) at 30 day intervals or as needed. After an initial 5 ounce (16 L) application, drought conditions can be best managed by applying 2 to 2.5 ounces per 1,000 ft² in 2 gallons of water (6 to 8 L/ha in 800 L) at 15 day intervals or as needed.

For extreme drought conditions with high temperatures and/or increased soil water repellency, apply 6 to 8 ounces per 1,000 ft² in 2 gallons of water (20 to 25 L/ha in 800 L) at 30 day intervals or as needed.

Irrigate with sufficient water to deliver OARS HS to the soil profile - 1/8 inch (3 mm) or more recommended.

DO NOT combine OARS HS in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.

HAZARD STATEMENT(S)

The product is not classified as hazardous. No known significant effects or critical hazards.

PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. In case of eye contact, flush eyes with water. If swallowed, give water or milk. If eye or skin irritation occurs or you feel unwell, get medical advice/attention.
