

OARS[®]

Organic Acid Redistribution System with Hydrating Surfactant

OARS technology targets and removes the organic acids responsible for soil water repellency at the source.

Provides 30 days of deep hydration with uniform water movement through the soil profile.

Creates drier, firmer playing surfaces while improving turf health and consistency.

OARS®

GENERAL INFORMATION

OARS is the corrective approach to manage the buildup of organic acids that coat the surface of sand particles which cause soil water repellency and localized dry spot conditions. When used as directed, OARS is safe to turf and can be applied at anytime of the year to avoid the detrimental impact of water repellency stress and localized dry spots on turf and to increase the vigorous appearance of turfgrass. OARS is easy to apply through standard spray application equipment to all turfgrass areas.

CONDITIONS OF SALE WARRANTY AND LIMITATION OF LIABILITY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

AQUA-AID GUARANTEE

OARS comes with a 100% money back guarantee. If you are not satisfied with OARS for any reason after trying the product at recommended rates, AQUA-AID Solutions will refund your money in full.

8.75 lbs/US gal at 68° F (1.05 kg/l at 20° C)

CONTAINS NON-PLANT FOOD INGREDIENTS:

Active Ingredients

- 80% Polyoxyalkylene polymers
- 10% Potassium salt of alkyl substituted maleic acid
- 10% Inert ingredients

DIRECTIONS FOR USE

Golf, Lawns, and Sports Turf

Apply 6 to 7 ounces per 1,000 ft² in 2 gallons of water (20 to 23 L/ha in 800 L) at 30 day intervals or as needed.

For increased penetration and surface firmness, apply 7 ounces per 1,000 ft² in 2 gallons of water (23 L/ha in 800 L) at 15 day intervals or as needed.

Irrigate after each application to remove the surfactant from the plant surfaces.

DO NOT combine OARS in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.

Danger

HAZARD STATEMENT(S)

Causes skin irritation. Causes serious eye damage.

PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. Wash hands, forearms, and other exposed areas thoroughly after handling. Wear protective gloves, protective clothing, and eye protection. IF ON SKIN: Wash with plenty of water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
